Dear Sir ,

Requesting permission to keep the faculty basement open until 10.00 pm.

The Lecture Hall 2 located in the basement of the faculty is being utilized as both the study area and the first-year undergraduates' project development space. With the upcoming end-semester examinations and the final project presentations, the need to use the lecture hall has increased, especially as there is no other place available within the university premises to keep the hardware project. Therefore, as representatives of Batch 18, we kindly request your permission to keep the basement Lecture Hall 2 open until 10.00 pm.

Thank you Yours,
Faithfully
